The Editor has retracted this article because of concerns with the images in this article. In particular:

- Figure 4b (panel IKB- α 37 kDa) appears to overlap with Fig. 5b (panel GAPDH 37 kDa).
- There are western blot bands in this article that appear to show signs of being run on different gels, such as Fig. 5b (panel Bax 20 kDa).

The authors were not able to provide original data. None of the authors has responded to correspondence from the Editor about this retraction.
