Following publication of the original article [1], the authors identified an error in Fig. 7. The correct figure is given below.

The original article [1] has been corrected.

The online version of the original article can be found at https://doi.org/10.1186/s12906-018-2364-9.

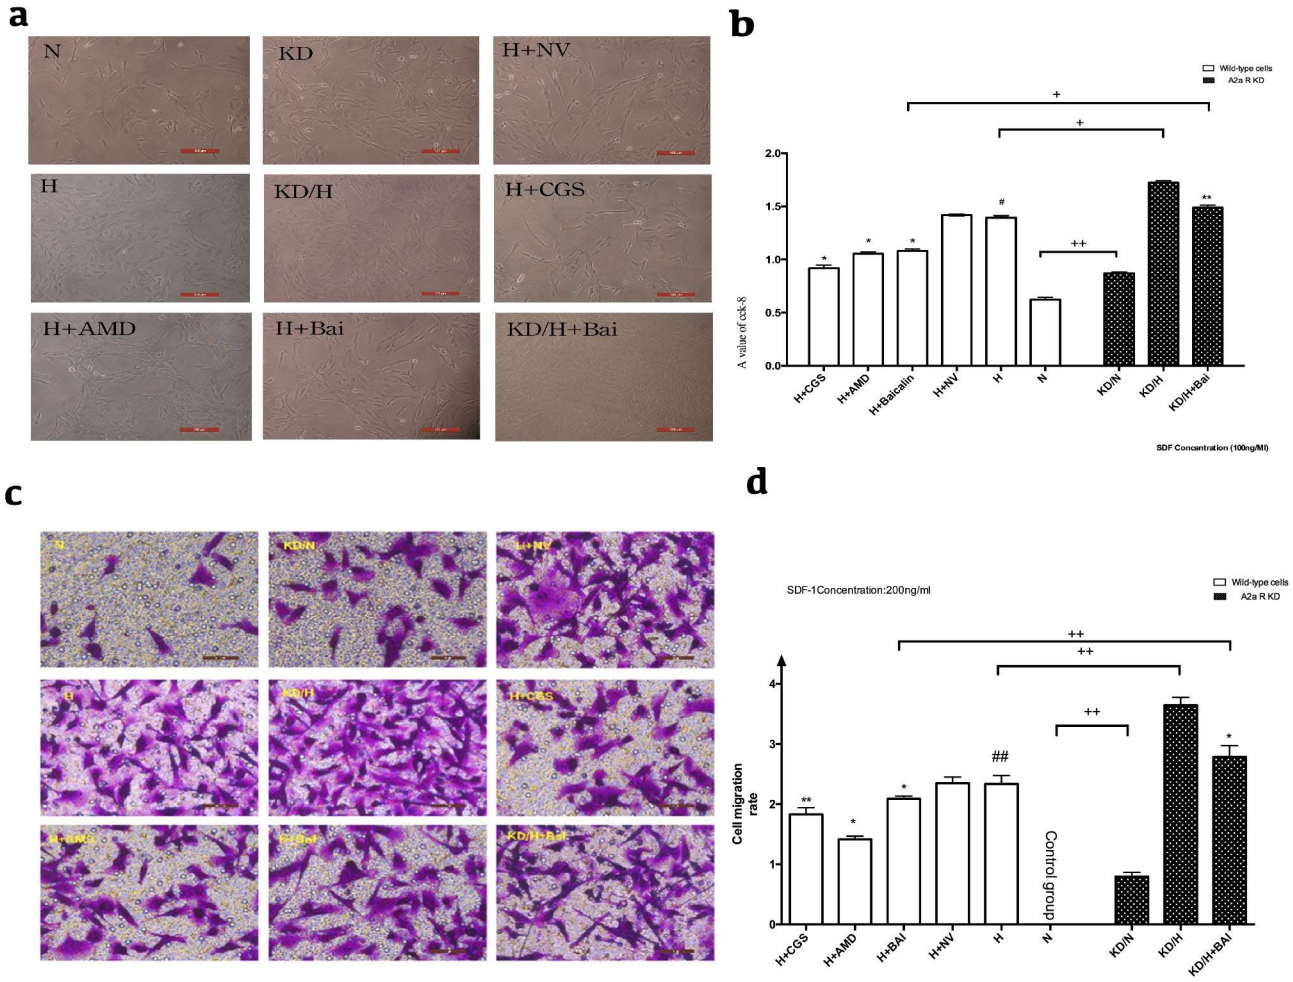

Fig. 7 A2aR upregulation and Baicalin attenuated hypoxia induced PASMCs proliferation and migration. **a**: Cell density in each group as viewed under a microscope. **b**: CCK-8 values in each group. **c**: Migrated PASMCs in each group as viewd under a microscope. **d**: Cell migration rate in each group detected by Transwell assay. # $P < 0.05$, ##$p < 0.01$ vs. normoxia group, * $P < 0.05$ **$P < 0.01$ vs. hypoxia group; + $p < 0.05$, ++ $p < 0.01$. Comparison between groups. n = 3.
